- Pre-marital Screen*
- Pre-pregnancy Screen*
- Fertility Screen*

For more details, look at our Family Planning Brochure*

PREPARING FOR YOUR HEALTH SCREENING

- ❑ On the day of your scheduled health screening, make sure you have fasted 10 hours before. You may drink plain water and take any chronic medication but foods are strictly not to be consumed.
- ❑ For ladies, pap smear, urine and stool tests are best done 7 days after the last day of your menstruation.
- ❑ For ultrasound pelvis, you are required to drink water. Refrain from urinating for about an hour before examination time.
- ❑ For ultrasound abdomen, fasting is required.
- ❑ If you are unwell, or are consuming immunosuppressant and/or steroids, please consult our doctor prior to doing your health screening as this may affect the results.

HEALTH SCREENING PROGRAMS

BY THE CLINIC GROUP

THE
CLINIC
GROUP

Regular preventive health screenings aim at identifying diseases at an early stage where it is still silent and most treatable.

Our health screening programs have been carefully put together to provide the most complete, holistic and premier health assessment.

Medical Partners offer 4 regular programs – **Healthy Life, Premium, Executive and Millennium.**

Feel free to contact us for any tailor made solutions.

All our health screening programs include an interview on your medical history, physical examination by the doctor and laboratory report.
